

Coordinated School Health (CSH) Initiative

The CSH initiative was implemented in Arkansas in 1998. The eight component model was developed by the Centers for Disease Control—Division of Adolescent School Health. Additional information regarding the initiative can be found at <http://www.cdc.gov/HealthyYouth/CSHP>.

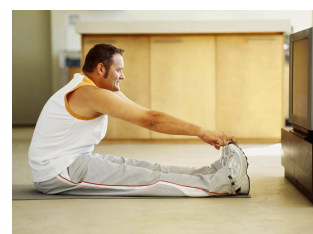

The goal of the initiative is to enhance student and staff performance. This goal is becoming a reality with the diligent work of students, staff, and families. Needs of the whole child are being addressed.

Water only in vending machines

Fresh fruits and vegetables snacks for pre-k through 4th grade students

Comprehensive p.e. curriculum
